| <b>Date of the publication</b>                                   | 23.10.2018  |
| <b>Number of the final report</b>                                | 2269  |
| <b>Safety recommendation</b>                                     | <p>Topic: Simulator training<br/>Target groups: flight crews, airline training instructors and manufacturer of training devices</p> <p>The aviation operators shall take steps to include pressurization problems more broadly in flight simulator exercises. Flight crews shall, thereby, not remain focused solely on decompression and emergency descent during pressurization problems.</p> |
